Is your child nearsighted (myopic) and interested in wearing contact lenses?

Sabal Eye Care is conducting a research study to test the ability of an investigational soft contact lens to help kids see clearly and slow the progression of nearsightedness.

If your child is 7 to 12 years old, and has or is experiencing symptoms of nearsightedness, they may be eligible to participate. Your child must want to wear contact lenses, but does not need to currently wear contact lenses or glasses to participate in this study.

Common symptoms of nearsightedness included blurred distance vision without glasses and contact lenses or the need to move closer to see things clearly.

Study-related procedures, contact lenses, and back-up glasses will be provided at no charge to you while your child is part of the study. Study participants will also receive compensation for their time (\$64 per hour).

VOLUNTEERS NEEDED

We need volunteers to assist with our many projects in the park - from working in the nature centre, on construction, trail maintenance, and administrative support. We always need people with skills such as mechanics & carpenters. This is a great way to give back to the community, support a worthwhile cause, and meets lots of great people. Even an hour or two a month can make a difference.

If you are interested and want to learn more, join us for an after hours open house on

Tuesday, January 11th from 5-7 PM
